NAVY MEDICINE
World Class Care…Anytime, Anywhere

Vanguard

Vanguard Mission:

- Identify and prioritize Naval Medicine capability gaps, requirements, and emergent needs for next generation Force Health Protection and Expeditionary Medicine.
- Provide validated capability gaps for high-level investment strategy in support of Navy Medicine's strategic goals and research for operations readiness, military health care, and health promotion.

Vanguard 2009 Goals:

- Review / validate identified Joint Force Health Protection (JFHP) capability gaps.
- Identify any new emerging operational gaps from Navy Warfighter perspective
- Review lessons learned for additional capability gaps.
- Prioritize gaps within each JFHP Capability area from Navy Warfighter perspective.
- Create overall first 10 action list.
- Agree on follow-on processes to include tracking & reporting requirements.
